PROJECTS

Quiz App | Kotlin, SQLite, Gradle, Android Studio, XML

August 2022

- Educational application built for Android systems built in Android Studio
- Uses Kotlin for front end and SQLite for back end
- Allows users to create, edit, delete, and do quizzes
- Implements multi-threading using Kotlin concurrency for database loading

University Registration System | Java, MySQL, HTML, Eclipse, Apache Tomcat

August 2022

- University registration system built with HTML and Java front end and MySQL back end
- Uses JDBC for connection between frontend and backend
- Simulates addition of courses, students and professors
- Allows professors to view students and assign grades and students to register for courses and view grades

Personal Portfolio | JavaScript, ReactJS, HTML, CSS

June 2022

- Built personal portfolio using JavaScript, ReactJS, HTML, and CSS
- Deployed using GitHub pages
- Responsive and adjusts accordingly different sizes of desktop and mobile devices

Photos Library | Java, Gradle, Android Studio, XML

Feb. 2022 – May 2022

- Photos library manager built for Android devices
- Supports accessing Android file system for photo access and addition
- Persistence across sessions in addition to error checking for missing photos

TECHNICAL SKILLS

Languages: Java, Python, C, C++, MySQL, JavaScript, HTML/CSS, XML, C#, Kotlin, SQLite

Frameworks: React, Node.js

Developer Tools: Git, VS Code, Visual Studio, Eclipse, Android Studio, Linux, Vim, Emacs, Unreal Engine, Unity, Scene Builder

Libraries: JavaFX, JDBC

Other tools: Adobe Illustrator, Adobe Photoshop, Microsoft Office Suite, Blender, GIMP, Inkscape
